

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-2 (canceled).

Claim 3 (currently amended) The restorative and grafting material for hard tissue defects using animal teeth according to claim 2 12, wherein the material is prepared by mixing the powder of the restorative and grafting material for hard tissue defects with medical gypsum at the ratio of 1:1 - 2:1.

Claim 4 (currently amended) The restorative and grafting material for hard tissue defects using animal teeth according to claim 2 12, wherein the powder of the restorative and grafting material for hard tissue defects contains 5-15 cc of concentrated platelets ~~regardless of the amount of the~~ powder.

Claim 5 (currently amended) The restorative and grafting material for hard tissue defects using animal teeth according to claim 2 12, wherein the powder of the restorative and grafting material for hard tissue defects is mixed with dental porcelain or acrylic resin at the ratio of 1:1 - 1:4 or 1:1 - 4:1.

Claims 6-11 (canceled).

Claim 12 (new): A restorative and grafting material for hard tissue defects using animal teeth, which is prepared by a method comprising the steps of:

- collecting animal teeth;
- removing soft tissues from the animal teeth;
- sterilizing the animal teeth;
- incinerating the sterilized animal teeth at high temperature;
- pulverizing the incinerated teeth to teeth powder;
- removing impurities and bleaching the teeth powder by treating the teeth powder at high temperature;
- re-sterilizing the teeth powder to provide for the restorative and grafting material in powder form; and
- mixing the re-sterilized teeth powder with a material selected from the group consisting of medical gypsum, concentrated platelets, dental porcelain, acrylic resin and mixtures thereof to attach defect area.
